SUBJECT.—Issue of bulk actual user licences to co-operative societies for the requirements of their members—amendment to the Import Trade Control Hand Book of Rules and Procedure, 1967.

No. 87-ITC(PN)/67.—Attention is invited to paragraph 80 in chapter IV of the Import Trade Control Hand Book of Rules and Procedure, 1967 published under the Ministry of Commerce Public Notice No. 57-ITC(PN)/67 dated 3rd July, 1967, which provides that the licensing authority may consider an application for the grant of an actual user licence for raw materials, components and spare parts from an industrial co-operative society for import of goods required by the individual members of the society in the manufacturing process in their respective factories/units.

2. It has been laid down in sub-paragraph 3(ii) of the said paragraph 80 in the Hand Book that, while applying for import licences on behalf of its members, the co-operative society should produce income-tax verification registration or exemption numbers of each member of the society. The position in this regard has been reviewed and it has been decided that, in such cases, the application for import licence should be accompanied by an income-tax verification registration/exemption number of the applicant society, and that the ITC numbers of the individual members of the society need not be produced. Accordingly, sub-paragraph 80(3)(ii) of the Import Trade Control Hand Book of Rules and Procedure, 1967 may be deemed to have been substituted by the following:—

- “(ii) Income Tax Verification registration or exemption No. of the applicant co-operative society;”

SUBJECT.—Import policy for motor vehicle parts (*S. Nos. 293, 295 and 297 IV of the I.T.C. schedule*) for the licensing period April, 1967—March, 1968.

No. 88-ITC(PN), 67.—Attention is invited to paragraph 3 in appendix 26 of the Import Trade Control Policy (Red Book) for the year April, 1967—March, 1968 which provides, *inter-alia*, that the individual members of the co-operative societies of transport operators applying for import of motor vehicle parts are required to furnish IVC registration/exemption numbers.

2. The position in this regard has been reviewed and it has been decided that the applications for import licences should be accompanied by the Income Tax Verification registration/exemption number of the applicant co-operative society, and that the IVC registration/exemption numbers of the individual members of the society need not be produced. Accordingly, the following amendment may be deemed to have been made in paragraph 3 of appendix 26 of the Import Trade Control Policy (Red Book) for the year April, 1967—March, 1968:—

For: “It may be clarified that individual members of co-operative societies of transport operators are required to furnish IVC registration/exemption numbers.”

Read: “It may be clarified that the co-operative societies of transport operators are required to furnish their IVC registration/exemption numbers.”

P. D. KASBEKAR,

Chief Controller of Imports and Exports.
